

RIYA MISHRA

B.TECH COMPUTER SCIENCE AND ENGINEERING STUDENT

Varanasi, Uttar Pradesh, India | misra7060@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Third-year Computer Science Engineering student with a strong foundation in Programming Languages, Web Development, and core Artificial Intelligence workflows. Experienced in project-based application logic and collaborative hackathons. Adept at designing intuitive frontend experiences and expanding core software architecture patterns. Seeking a professional technical internship to leverage academic knowledge, refine development workflows, and deploy impactful production solutions.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science and Engineering 2024 – 2028

Dr. A.P.J. Abdul Kalam Technical University (AKTU) • Current SGPA: 8.60

Intermediate (Class XII) – CBSE Board Completed: 2024

Grade: A

High School (Class X) – CBSE Board Completed: 2022

Grade: A

TECHNICAL SKILLS

Programming Languages: Python, C, Java

Emerging Tech & AI: Artificial Intelligence (AI) Fundamentals

Web Technologies: HTML5, CSS3, JavaScript (ES6)

Backend Fundamentals: Node.js, REST APIs

Tools & Platforms: VS Code, Git, GitHub

Core Concepts: Software Design, Algorithmic Problem Solving

PROJECT EXPERIENCE

Micro-Credential Aggregator Platform [Live Demo](#)

Tech Stack: HTML5, CSS3, JavaScript, GitHub Pages

- Develop a responsive web platform to organize and showcase certificates from multiple learning platforms.
- Designed a user-friendly interface to improve accessibility and navigation.
- Implemented filtering and categorization features for easy credential management.
- Hosted the projects using GitHub pages for seamless online access.

[Live Demo](#)

Universal AI Safety Super App

Tech Stack: Frontend Architecture, Ethical AI Principles, Wireframing

- Developed a safety platform that combines AI threat awareness with real-world emergency assistance features.
- Implemented Voice SOS support in English and Hindi for quick emergency alerts.
- Designed live location tracking functionality to help users share their location during critical situations.
- Created an intuitive dashboard to improve user access to safety tools and threat monitoring features.

CERTIFICATIONS & CREDENTIALS

Cloud, Language & Virtual Internship Certifications

[View All Verification Files](#)

Centralized Google Drive Secure Repository

- **Google Cloud:** Completed Cloud Computing Foundations certifications covering infrastructure and analytics basics.
- **Programming Certification:** Earned C and C++ Programming Language Completion Certificates demonstrating logical application design.
- **Unstop Platforms:** Secured competitive assessment and technical hackathon engineering credentials.
- **Forage Internships:** Completed virtual experience program to practice real-world software engineering tasks.
- **GeeksforGeeks Campus Representative:** Appointed as Campus Mantri (June 2026 – Present) to lead peer engagement, organize college-level tech events, and drive adoption of educational resources.

Microsoft Official Learning Account

[View Official Transcript & Badges](#)

Microsoft Technical Credentials & Earned official Microsoft Learn badges and achievement milestones through cloud and AI learning modules

- Accumulated technical learning points, official cloud badges, and role-based milestone awards across Microsoft's official curriculum.

HACKATHON EXPERIENCE

College Level Hackathon Participant

- Participated in multiple innovation and technology hackathons, collaborating with team members to develop problem-solving solutions.
- Developed project prototypes, UI designs and technical presentations within limited timeline.
- Enhanced teamwork, problem-solving, and project management skills through competitive hackathon environment.

SOFT SKILLS

- Analytical Thinking
- Effective Presentation & Communication
- Teamwork
- Problem Solving
- Leadership
- Time Management
- Adaptability
- Initiative & Self-Learning
